About Garden State Brickface

Since 1953, Garden State Brickface and Siding has been the tri-state area's most respected source for elegant and durable exterior solutions. As one of New Jersey's best-known remodeling companies, providing top-quality exterior solutions to homeowners and commercial property owners, we are the single-source for Brickface, Stucco, Stone Veneers, Hardcoat, Energy-Efficient Vinyl Siding and Energy-Saving Replacement Windows. Any or all can be combined to give your home or building the look you want at a price you can afford.

We offer products in a wide range of styles and textures that you simply cannot find elsewhere. Using natural pigments, we can create almost any color, and our trained artisans will apply your selected surface with speed, precision and the utmost commitment to quality.

We are experts in the installation of EIFS Moisture Drainage Systems and can remove an old EIFS Barrier installation from any residential or commercial building.

Garden State Brickface and Siding also offers replacement and installation of high quality seamless, aluminum gutters and leaders to help improve the look and value of your home. We come to your home and manufacture your custom-built gutters on-site, to the exact specifications of your home. Our gutters feature a superior coating system that provides excellent on-site manufacturing capability while outperforming other materials in all weather conditions. Best of all, most installations are completed in one day or less.

Installations by Garden State Brickface and Siding are designed to last. This is why we can offer the

Our Reviews

I was very impressed with the work and professionalism that Garden State Brickface and Siding provided me with my stucco project. Beginning with our sales rep Mark Pacelli who was very available to come out and talk me and our Board of Trustees at our convenience and describe the process. Lori Rizzolo, working behind the scenes, kept a very open line of communication to discuss schedules and payments and was always courteous and quick to reply to any questions. Finally, the work crew came out and worked to provide us with a clean, clearly marked work area. A number of issues could've existed, as far as keeping the community hall open to public, but the crew kept the area clean and worked in a professional manner. I would not hesitate to use Garden State for any future work.

We used Garden State Brickface to renovate our foundation and they did a fantastic job. Lori in the main office was extremely helpful and stayed in communication with us the whole time the crew was at our home. The guys that did the work were polite and knowledgeable. They completed the job in a timely manner and cleaned up after themselves each day they were there. They answered all of my questions and made sure we were 100% satisfied before they left. We are very happy and would definitely use them again!

Garden State responded quickly to my inquiry. Sent a salesman to my home and provided us a detailed process of the work. A couple weeks later the work began and in a matter of days the work was completed. Even less time was used than estimated by the salesman. We were very pleased with the customer service provided by Lori who is a star!! Whenever questions came up, she was there ready to answer questions and provided quality service! When I called, the man I spoke with, was very pleasant and scheduled Jon Titmas to come and show us samples. Jon gave us the price and we signed the contract. Lori then called to say when the men would come to work, which they did and they did a great job and very quick too. We had to schedule another day to complete the job and with weather not the best we had to wait a bit but we are very happy with the results. Would definitely hire them again and also I would refer anyone to call this company. A+++

GSB did great work on a repair to our siding and replaced all of the garage trim. The completed job refreshed the whole look of the garage door side of the house, it was done neatly, quickly and with no mess left behind. I was most impressed with the way they diligently searched for my siding (from seven years ago!), so we had a perfect color and style match.

Well Done GSBFS They followed through with their promise that we would like the results. Seeing is believing. My wife and I don't just toss around 5 stars at a whim. I would like to give a special thanks to Christian and his crew for removing any doubts we had with the project. His team although hard to understand was very respectful of our property while being very hard workers. It's tough to do this type of work and still keep the clients property intact. Well done guys. I would also like to thank Mark and Mike for their reassurance and of course Lori. She was very integral with keeping everything on track. Renovation to the front of our house.

We hired GSBF to replace 3 large plate glass windows and to add stone to the foundation of our home. We were so pleased with the entire process. Mark, the salesman, was patient and helpful. Christian and his crew gave us a beautiful foundation of stone and stucco that makes us smile every time we go outside. Ronnie and his crew did a great job replacing our windows. They were fast, efficient, and neat. What a treat! And we absolutely wish to extend a huge thank you to Lori for pulling all the work together. She did an amazing job keeping us informed and always followed up quickly if there were questions. She deserves a raise or at the very least a bonus! Hiring contractors can be a hairy experience. We were so pleasantly surprised with the smooth and professional craftsmanship provided by GSBF. We highly recommend this company and will hire them again when we are ready for the next project.

Great work on my chimney. They did the brickfacing work on my home decades ago and I was impressed then and continue to be now. Thank you for the quick and clean work. I was worried about the plants near my home but they were all left unscathed and this is the first time any workmen not only cleaned up but wound up my water hose nicely and neatly back into place. Thank you.

An estimate was scheduled in a day after the call and the gentleman explained everything so there were no surprises. To my advantage, another client had to postpone their project and I was asked if mine could be done earlier than expected. My entire foundation was completed in one day! The crew was terrific. They kept me in the loop and answered any questions that I had through the entire process. I couldn't be happier. When completed, the clean up was great. No traces of any residue was left anywhere on my property. I will definitely contact Garden State Brickface again for my next project.

Lori, at the office was very friendly and spoke with both my husband and I on separate occasions assuring we were happy with the progression of the job. We had our entire foundation covered with their "stucco finish" product and it looks BEAUTIFUL! The construction team, headed by Ralph, was neat, courteous and skilled at their work. They put tarps at all of their work areas, packed everything up neatly and clean at the end of the day. Amazing Work Ethic and Quality! My house looks amazing! Thanks to Garden State Brickface and Siding. Initially I called them to brickface my chimney. I wasn't even aware of them carrying siding. I'm so glad I found them! As an architect, I can be very meticulous. I've got nothing but high praise for the team. My first contact was with Jon Titmus. He came to the house and offered several options, including financing. After I hired them, Lori from their office checked in a few times to check colors, timing, permit status, and dumpster delivery. Not too little contact and not too much. They arrived when they said they would. Marcus, the forman went through my concerns and special things to keep an eye on, or to prep for work outside their scope. Patrick, the lead installer was patient, careful and a craftsman with the aluminum trim. He custom bent the trim for all the windows and doors. Nothing was pre-made. My house was built in 1870. Nothing is square and nothing is standard. He custom bent and cut to fit perfectly around every opening. Upon removing the old siding, we found a closed in old window. They jumped right into opening it up. I ordered an exhaust fan for next day delivery and created an opening for them for the next day. Well, long story short, my fault, siding needed to be cut out and replaced. Not a wince from them. They just did it without any problem. I've hardly ever written a review, and certainly nothing this long. I would HIGHLY recommend them to everyone. My house looks amazing! Thanks to Garden State Brickface and Siding.

The crew showed up on time, took every safety precaution to ensure my neighbors vehicles would not be sprayed with cement or paint. The men work very **** * a very hot day, and finished in one day! I could not have been more satisfied with their work and professionalism.

GSB installed brick face to the front foundation wall of my home. In it's present condition, the wall was ugly, and had surface cracks. GSB repaired all the cracks, then applied their mortar over lath system, including a stainless steel j-bead on top and sides ensure than moisture would not get behind the mortar. Then, they finished it off in their traditional brick face design, using a three color mix. Now, the front of my home is something to be proud of, instead of an eyesore!

You cannot tell the difference between the existing portions and the repaired portions. I will highly recommend Garden State to family and friends. We recently had mason and stucco work done by Garden State Brickface and it was a satisfying experience from the beginning to the end. We received at least 5 estimates from various masons and none were as professional or could do all the work that we needed done (stucco, chimney repair, etc.) as Garden State Brickface. The sales rep came out to our house, explained the details of the entire process and provided us with a reasonable quote and financing options. They cleaned up thoroughly after each day. Garden State created an amazing restoration of our building in less than two days. They were able to create a vintage restoration look on a 19th century townhouse in just two days, which is nothing short of spectacular in appearance and professionalism in quality.

HIGHLY RECOMMEND! My husband I were nervous about who to choose for our very big home improvement project. We had multiple contractors come to give us a quote. G.S. was basically in line with the other quotes but gave us a slightly better deal to win our business. But that being said, the reason why we ultimately chose G.S. was because of how long they've been in business and their reputation. We're so happy with them. They did a beautiful job. They're extremely neat and professional. They truly care about their reputation and it absolutely shows in how they treat their clients!

I highly RECOMMEND Garden State Brickface, Windows & Siding. As most homeowners, my husband I were nervous about who to choose for our very big home improvement project. We wanted to change our vinyl siding on the front of our home to brick face. We had multiple contractors come to give us a quote. Garden State Brickface was basically in line with the other quotes but gave us a slightly better deal to win our business. But that being said, the reason why we ultimately chose Garden State Brickface was because of how long they've been in business (decades) and their reputation. We are so happy with our decision. Our home looks like a brand new home. They did a beautiful job. They were extremely neat and conscientious. Their staff was professional and went out of their way to please us. We had one concern at the end of the job. The Branch Manager came to our home within days of us reaching out to him, discussed our concern and rectified in a way we felt went above and beyond. They truly care about their reputation and it absolutely shows in how they treat their clients. Thank you so much Manny, Michael and Lori. We will absolutely tell all our friends and family about our wonderful experience with Garden State Brickface!!!!

Overall, I was satisfied, even though there were some minor defects. These were probably due to weather conditions. Some of the masonry didn't dry adequately. Great results, but you pay for it. I would use them again. Warning: Don't call for an estimate or let them in your home until you are actually ready to pull the trigger. They push a heavy sell and I am still uncomfortable about the experience. That being said I'd still use them again for my next project, they were very fast, thorough, they cared, they payed a lot of attention to whether I was happy or not, and they can repair and seal stucco like no one else. They can even help with design ideas if you want a hand.
